Garden or Storage Shed Roof Colour Option

You can have a different coloured roof from that of your shed walls by choosing an option below. For example match your shed to your fence colour and match your roof with your house roof.

Storm Shed and Garden and Storage Shed 2.25m x 1.50m x 1.97m (1.8 Wall) Gable Roof Zinc

The Gable Roof Garden and Storage Shed is the most popular in our gable roof range. The 11 degree roof pitch allows water to run off the shed and provides head room whilst in the shed.
